⚡ **Electric** ®

# IT management doesn't have to be manual

Centralize your IT management in one platform to easily visualize and manage your devices, employees, and applications. No IT skills required.

## Keep all IT information secure and up-to-date

Electric's unique IT platform gives you full visibility into the security of your IT environment.

Device health insights via Mobile Device Management

Visibility into critical security and compliance controls

Real-time insights into security events happening on your devices, networks, and email inboxes

### Integrate HR & IT and drive productivity

Electric offers a unified view of employees, their devices, and applications so you can identify potential risks to your business data, see which new hires need hardware, and securely track employee offboarding.

# Get IT and security set up in a day

Electric will set up your IT and Security environment in less than 24 hours. From there, you can enjoy peace of mind and extra hours in your day to focus on other priorities.

## Getting started

**STEP 1**

Login to IT Hub to easily configure MDM with best in class security policies automatically set up.

**STEP 2**

Add or import all employees to IT Hub to install Electric app in each device.

*(This can be done remotely by each employee).*

**STEP 3**

Each device will be prompted to install JumpCloud's MDM.

*(This can be done remotely by each employee).*

**STEP 4**

Start to monitor your IT and Security without lifting a finger.

## Always available

Strengthen your security posture through security tools that provide antivirus, password management, network security, and more.
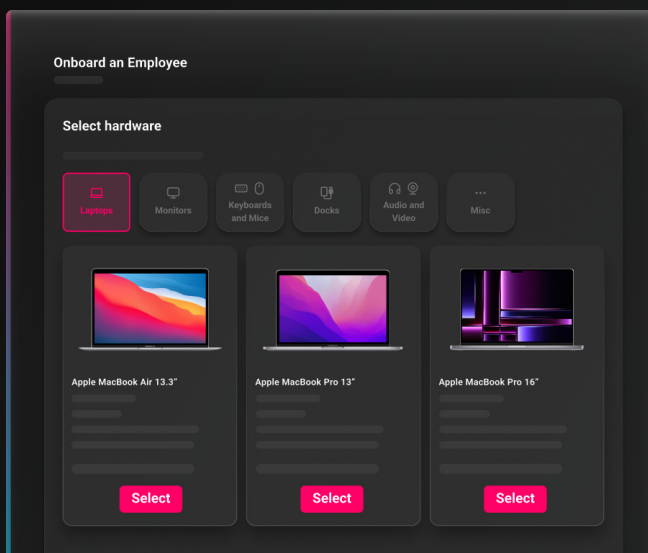

Integrate Electric with your HR system and get all your employee data securely managed in one platform.

Access a wide range of new, high-performing devices — without being tied to a single vendor.

# Track and control all of your hardware

**Onboard an Employee**

Select hardware

Laptops | Monitors | Keyboards and Mice | Docks | Audio and Video | Misc

Apple MacBook Air 13.3"

Apple MacBook Pro 13"

Apple MacBook Pro 16"

Select | Select | Select

## Keep all your devices and peripherals data documented and accessible

Have a new hire? See which devices are available or shop from our [hardware store](#) to ensure your employees can get to work from day one.
