Onboard and offboard employees in minutes

Electric customers reduce hands-on onboarding time from more than 8 hours to less than 7 minutes. What will you do with all that time back?

## Automate onboarding and offboarding workflows - no tech skills

Device procurement, shipping, and storage

Application, software, and file access
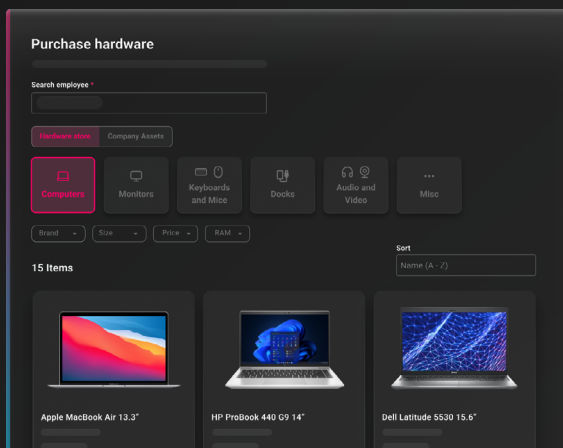

Compliance and data security

Still manually onboarding new team members?

Save time and improve the employee experience with automated onboarding that sets new hires up for success from day one:
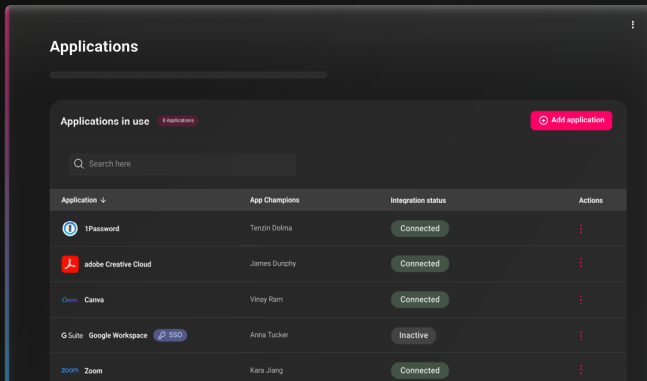

- Procure and ship devices in time for an employee's first day
- Grant secure, role-based access to software and systems
- Keep employee data secure and up-to-date with seamless HR system integration

Simplified device procurement and warehousing

Manage the entire device lifecycle from a single platform and enjoy a smoother procurement process with the Electric Hardware Store - your one-stop-shop for devices and peripherals:
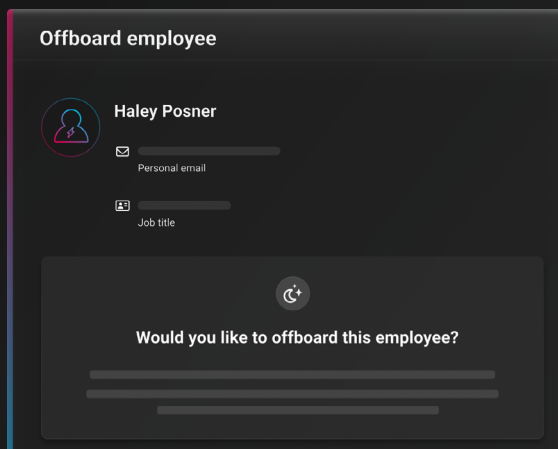

- Choose from a curated, brand-agnostic catalog of hardware
- Handle device purchases, storage, and shipping from a single platform
- Boost productivity and stay compliant with hardware that's ready for your IT and security environment setup

Automated application management

Integrate employees' application access with your onboarding workflows to automate account setup and securely manage user permissions:

- Customize and standardize user permissions based on roles and teams
- Provide app access for new hires from day one
- Improve visibility and control over which employees have access to which apps

Fast and secure employee offboarding

Complete offboarding tasks efficiently and securely with defined workflows that integrate directly with your HR system:

- Lock and wipe devices remotely
- Transfer ownership and revoke access to apps and sensitive data
- Retrieve hardware with a straightforward return process and fully tracked shipping
- Store hardware until you need it, or wipe and reassign devices to another employee

Seamless integration with your tech stack

Electric integrates with the most commonly used HR platforms in a single click, keeping data in sync and delivering full visibility of employees, devices, and applications in one place.

Not sure if we integrate with your HR system?
